

# PLAN. PREVENT. PROTECT.

***Vaccinate your horse against dangerous disease.***

**Risk exists, protection is a choice.** From the pasture to the show stall, the environments your horse passes through are playgrounds for disease carriers. Talk to your AAEP-member veterinarian about the right vaccination program for your horse.

## **AAEP Core Vaccinations**

- Tetanus
- Eastern/Western Equine Encephalomyelitis
- West Nile Virus
- Rabies

Additional vaccinations may be necessary. Contact your veterinarian to determine the best vaccination program for your horse. For more information about vaccinations, visit: [www.aaep.org/vaccination\\_guidelines.htm](http://www.aaep.org/vaccination_guidelines.htm)
